Don’t throw this stuff in the trash. All of it poses a threat to people and the environment—or both—if not disposed of properly. Most of these items can be dropped off during the Brown County Household Hazardous Waste Collection dates. Please call about additional information on the rest.

### Household Items
- Aerosol Products
- Drain Cleaners
- Fire Extinguishers
- Mothballs
- Nail Polish/Remover
- Oven Cleaner
- Polish with Solvents
- Spot Removers
- Toilet Cleaner
- Rechargeable, Nickel Cadmium, Lithium Ion or Button Batteries
- Bleach
- Thermometers (mercury) or mercury containing thermostats.

### Home Improvement Items
- Latex Paint
- Oil-Based Paints
- Stain, Varnish, Lacquer
- Paint Thinner
- Turpentine
- Furniture Stripper
- Paint Remover
- Wood Preservatives
- Roofing Tar
- Driveway Sealer
- Glue with solvents
- Putty, Grout, Caulk
- Concrete Cleaner
- Glaze, Spackle

### Lawn & Garden Items
- Weed Killer
- Insect Killer
- Roach & Ant Killer
- Rodent Bank
- Bug Spray
- Fertilizer With Weed Killer
- Pool Chemicals
- Lighter Fluid

### Automotive Items
- Auto Batteries
- Transmission Fluid
- Brake Fluid
- Antifreeze
- Gasoline/Fluids
- Degreasers
- Carburetor Cleaners
- Windshield Washer Fluid
- Auto Paint
- (we will not accept used oil)

Brown County does not collect used oil, light bulbs, electronic waste or household appliances at the HHW Collection. There are separate collection events for these items throughout the year or they can be recycled locally at any time.

NON–Toxic Cleaning Recipes

**Basic supplies:**
- Baking soda
- Bon Ami cleanser
- Borax
- Lemon or lime juice
- Liquid dish soap
- Vegetable oil
- White vinegar
- Non-scratch scrubber sponge

**DO:**
- Read and follow all label directions on all products you purchase.
- Label all containers with ingredients, intended use, and date made.
- Keep all containers out of children’s reach.
- Keep all containers closed when not in use.
- Never use non-chlorine bleach if you feel you must use a bleach product. Use it by itself.
- Control pests by eliminating their food, water, and access.

**DON’T:**
- Don’t use food or beverage containers for cleaning chemi-
cals of any type.
- Avoid using bleach and ammonia. Never mix these products with each other—or with any other product.
- Avoid using chemical pesticides.

**All-purpose cleaner:**
- 1/4 cup white vinegar
- 2 tsp. borax
- 1/2 cup hot water
- 1/4 to 1/2 cup liquid dish soap
- 1/2 cup herb tea (Peppermint has antibacterial qualities.)

Combine ingredients in a pail with 3 gallons of warm water. Swirl until it is sudsy. Rinse with 1 cup of vinegar in 3 gallons of cool water.

**Wood floor cleaner**
Use 1/2 cup vinegar per gallon of water. Wipe dry.

**Wood cleaner**
- 1/4 cup white vinegar
- 1/4 cup water
- 1/2 teaspoon liquid soap
- 2 cups olive oil

Combine the ingredients in the solution and wipe onto wood surfaces.

**Furniture polish**
- 1/2 teaspoon olive oil
- 1/4 cup vinegar or lemon juice

Mix the ingredients in a glass jar. Dab a soft rag into the solution and wipe onto wood surfaces.

**Carpet spot remover**
Blot immediately. Sprinkle with baking soda, cornstarch, or borax and let dry. Wash with club soda and vacuum.

**Window cleaner**
- 1/4 cup white vinegar
- 1/2 teaspoon liquid soap or detergent
- 2 cups water

Combine the ingredients in the solution and shake to blend.

**Oven cleaner**
- 1 cup or more baking soda
- 1/4 cup white vinegar
- 1/2 teaspoon liquid soap
- 2 cups water

Sprinkle the grime with enough baking soda so surface is totally white. Sprinkle more water over top. Let sit overnight. Wipe up the grime the next morning; then with a bit of liquid soap or a damp sponge, wash remaining residue from the oven.

**Soft scrubber; Basin, tub and tile**
- 1/2 cup baking soda
- enough liquid soap or detergent, to make frosting-like consistency
- 5 to 10 drops antibacterial essential oil, such as lavender (optional)

Place baking soda in bowl; slowly pour in liquid soap, stirring continually. Add essential oil. Scoop mixture onto sponge, wash surface, and rinse. (Bon Ami is another option.)

**Rust remover for sinks and tubs**
Sprinkle a little bit of salt on the rust, squeeze a lime over the salt until it is nicely soaked in lime juice. Leave the mixture on for two or three hours. Use the leftover rind as a handy scrubber. Rust is gone.

**Unclog and deodorize drains**
A straight 5% solution of vinegar – such as you buy in the supermarket – is effective for eliminating harmful bacteria, mold, and germs. Keep a spray bottle of vinegar in your kitchen and in your bathroom.

- Avoid using chemical pesticides.

**All-purpose cleaner:**
- 1/4 cup white vinegar
- 2 tsp. borax
- 1/2 cup hot water
- 20 drops lemon or lavender essential oil
- 1/4 cup liquid dish soap

In a 32-oz. spray bottle, mix the vinegar, borax, and water thoroughly. Add essential oil if desired. Add dish soap last.

**Floor cleaner**
- 1/8 cup liquid soap
- 1/4 to 1/2 cup white vinegar or lemon juice
- 1/4 cup hot water
- 1/2 cup herb tea (Peppermint has antibacterial qualities.)

Combine ingredients in a pail with 3 gallons of warm water, Swirl until it is sudsy. Rinse with 1 cup of vinegar in 3 gallons of cool water.
